TAKEOUT & DELIVERY DON'T COUNT

HOW TO MAKE IT COUNT

1 Come in on their Tuesday

The one date and the one Square Peg your group named — not just any Tuesday, and not whichever location is closest. Any time from 4pm to close. No ticket, flyer or reservation needed.

2 Eat in the restaurant

Dine-in only. Takeout, delivery and the third-party apps don't count towards the total — this is the one that trips people up.

3 Tell your server who you're with

Say the group's name when you order. That's how your table gets counted.

QUESTIONS?

Scan for what counts, what doesn't, and the menu. No ticket needed — just say who you're with.
